Capital Contracts on Highway 1

My questions are for the Minister of Transportation:

1. What is the total amount spent on capital projects on Highway 1 since 2011-2012, including the winter road section;
2. Which companies, both northern- and southern-owned, have been awarded capital contracts on Highway 1 since 2011-2012, including the winter road section, and what was the process for selecting them;
3. How many companies requested negotiated contracts from the Department of Transportation between November 2015 and June 2016; and
4. How many companies were successfully awarded negotiated contracts between November 2015 and June 2016?
