MLA, MACKENZIE DELTA

Oral Question 164-18(3): Emergency Planning Resources

During the February 26, 2018 sitting of the Legislative Assembly, the Minister of Municipal and Community Affairs (MACA) committed to liaising with the Government of the Northwest Territories (GNWT's) departments concerning emergency planning resources for community governments.

As indicated, an integral part of MACA's effort to help community governments prepare for emergencies are face-to-face workshops and table-top exercises. During these activities, much discussion takes place concerning resources required to effectively respond to threats and hazards. Key decisions or issues are documented and shared with MACA and key personnel from other GNWT departments. As part of this process, MACA commits to following up with GNWT departments to ensure community governments receive timely responses on service and/or resource requests.

Thank you for raising this important topic.
