**Operating Rooms at Stanton Territorial Hospital**

I have the following questions for the Minister of Health and Social Services concerning the productivity of operating rooms at Stanton Territorial Hospital:

1. How many scheduled surgeries and day procedures were completed in 2024, broken down per month;
2. What are the total hours worked by all surgical teams for the year 2024;
3. How many surgeries and day procedures were cancelled over the same time period;
4. Will the Minister provide a full cost accounting of all scheduled surgeries and day procedures completed in 2024; and
