## **Access to Rehabilitation Supports**

1. Can the Minister of Health and Social Services detail what rehabilitation services were available to patients in recovery, from January 1, 2022, to May 30, 2025?
2. List each of the rehabilitation services positions and include which healthcare centre and hospitals they are provided and include staffing levels of each service.
3. What is the average vacancy rate for each position providing rehabilitation services?
4. What is the average wait time between a referral and actual direct support through these services (i.e. doctor refers on January 1, but patient doesn't receive an appointment until September 23 – equating to 265 days).
5. How many positions, by positions, provide services outside of where their position is located, list the position:
  - a. If they are in territory, how many days are they away on average?
  - b. If out of territory
    - i. how many days;
    - ii. where do they go;
    - iii. and what is the average cost?
  - c. If out of territory,
    - i. what is the average cost recovery; and
    - ii. Is there a financial loss or gain for providing these services, provide the average.
